

SUB35

A Powerful Subwoofer that Does Not Compromise on Looks

We intended to create a compact but really powerful subwoofer. At the same time, it had to be beautiful. We did it.

This new model employs an advanced 12-inch carbon fiber active transducer and two 12-inch passive radiators. Designed to deliver extreme dynamics and the lowest distortion for music and cinema sound reproduction in systems of Halo loudspeakers. Built-in 1000-watt amplifier and a broad range of controls for refined system integration. Finished in red or white piano lacquer, or matte black.

Key Features:

Compact Size, Good WAF (Wife Acceptance Factor)

Uncompromised Deep Bass in compact cabinet (Down to 20hz)

Built in 3200watt ClassH amplifier(max)

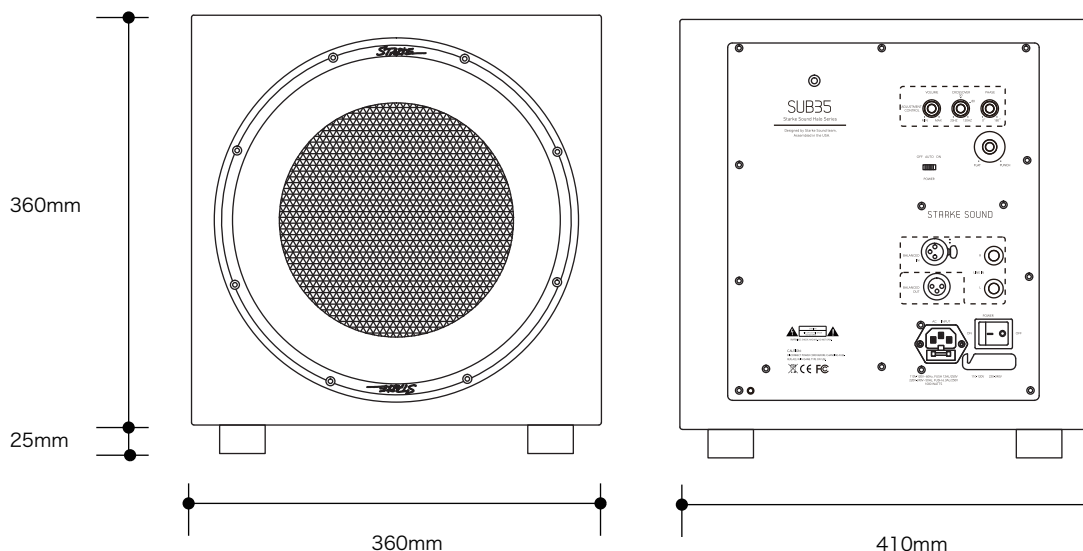

12-inch LMF-TECH driver with dual 12-inches carbon fiber sandwiched passive radiator

Adjustable Knob for Response Curve (Flat to Punchy)

Special made halo level circuit boards, OFC cooper layers with thick gold plating

Red and white high gloss piano lacquer finishing, or Black matte lacquer finish option

115/230V switchable
